

TESA TAPES

ACXplus (Very High Bond) DOUBLE SIDED TAPE

G1

ACXplus - the answer for constructive bonding applications.

- High strength and long lasting bond that will last for decades.
- Tolerates extreme temperature changes even for join partners with different elongation factors which is often necessary in many of our harsh Australian settings.
- Provides a superior bond that resists harsh outback temperatures, weather, UV and chemical influences.
- Excellent immediate adhesion on substrates with low surface energy, such as many plastics and powder coated or cured materials.
- Will withstand temperatures up to 200 C for short term and down to -40 C.
- High transparency option makes this product highly useful in office and residential fitouts and in the signage industry.

CODE	DESCRIPTION	WIDTH, LENGTH, THICKNESS
TT7055TP12	ACXplus transparent very high bond double sided tape	12mm / 25m /1mm
TT7055TP19	ACXplus transparent very high bond double sided tape	19mm / 25m /1mm
TT7055TP25	ACXplus transparent very high bond double sided tape	25mm / 25m /1mm
TT7074BL12	ACXplus black very high bond double sided tape	12mm / 25m /1mm
TT7074BL19	ACXplus black very high bond double sided tape	19mm / 25m /1mm
TT7074BL25	ACXplus black very high bond double sided tape	25mm / 25m /1mm
TT7078BL12	ACXplus black very high bond double sided tape	12mm / 18m /2mm
TT7078BL19	ACXplus black very high bond double sided tape	19mm / 18m /2mm
TT7078BL25	ACXplus black very high bond double sided tape	25mm / 18m /2mm
