

# LOCKS & HANDLES

## EB400-9D ROTARY LOCK DUAL STAGE

This is a dual stage rotary latch, zinc plated, that meets all FMVSS 206 safety standards when mounted using Grade 8 bolts for installation and in conjunction with an Eberhard certified striker, such as our 2T-400-52 (sold separately.) Please note this is the rotary only and the striker (2T-400-52) and bracket (D-400-53) are sold separately. While you are ordering the left handed version with dovetail feature and two INDEPENDENT actuators that each have a .250" diameter hole for activation options, this is the RIGHT handed version pictured.

Code	Description
EB400-9D-UL EB400-9D-UR	This is a dual stage rotary latch, zinc plated, that meets all FMVSS 206 safety standards when mounted using Grade 8 bolts for installation and in conjunction with striker, such as our 2T-400-52.
