Based on a blend of natural rubber, 'OUTBAK™' rubber has a softer Duro than other rubber sheeting. It is pink in colour. 'OUTBAK™' rubber is excellent for pipe linings and shoot holes. This rubber has excellent reflex and recovery features and is super abrasion resistant. 'OUTBAK™' Rubber has excellent resistance to wear and tear thus making it a very good load bearing product. 'OUTBAK™' rubber is used in mining, gaskets, pipe lining, dust curtains and high impact applications. This product has a high component natural rubber latex and the buffed option is specifically designed for tough abrasive environments. It is specially buffed to enable an excellent bond to most surfaces.
