Single Folding Foot Step

Product Overview

Tool NSXL-115001

Folding Foot Step

Product Name: Folding Foot Step

Intended Use: Step footrest for access to trailers, caravans, 4x4 camping units, UTE toolboxes, ladder access & equipment shells

Key Feature: Folds flush when not in use, deploys to stable usable step when needed. 100mm x 75mm non-slip tread.

Materials & Finishes

Version	Material	Finish / Treatment	Notes
Stainless	Cast 304 stainless steel	Polished finish	Highly corrosion-resistant, suitable for marine & harsh environments
Zinc Plated	Cast steel	Zinc plating	Good general corrosion protection
Safety Yellow	Cast steel	Primer + powder coat <u>safety yellow PT1235C</u>	High visibility safety

Load Specifications

Rated load capacity 120kg

Safety & Surface Features

Anti-slip / tread surface: groove pattern on tread surface to increase friction, especially in wet muddy conditions.

Locking / detent mechanism: The deployed step should lock securely in position to prevent accidental folding under load.

Stow position / clearance: When folded, the step should lie nearly flush against mounting surface.
