I.R.S. is a major supplier to industries including:

Signage

Oil & Gas

4WD & Campers

Marine

Plumbing

Mining

Equestrian

Transport

Building

Agricultural

ABOUT I.R.S.

Since its inception in 1988, IRS has gained a reputation for providing high quality customer service. Our team is committed to providing goods and services that will meet customers' specific needs.

IRS is a specialist build with quality, supplier and stockist of a broad range of rubber extrusions, sponge extrusions and rubber mouldings, including custom designed moulding. We carry a comprehensive stock of rubber sheeting in most compounds, including natural, neoprene, nitrile EPDM, silicone rubber, hypalon, viton and profile rubber sheet. We also distribute a full range of double sided and general purpose foam tapes. Our large range of sealants includes SMP silicone, polyurethane, acrylic, mastic and panel adhesive, both in sausage and cartridge form, together with backing rod applications tools and guns.

To complement this vast range, we also stock and distribute a comprehensive range of body building, switchboard, and general hardware, including locks, latches, hinges, gas struts, drawer slides and handles.

QUALITY

When you partner with IRS, you join a quality endorsed company certified to AS/NZS ISO 9001:2008 standards.

OUR VALUES

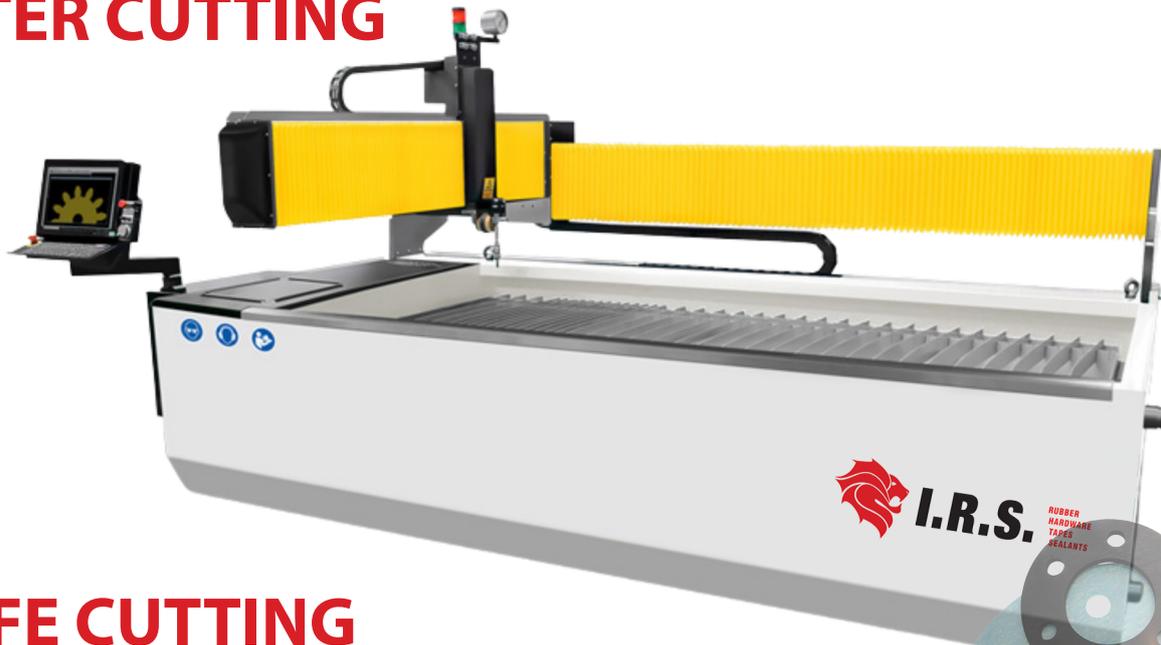

CUTTING

I.R.S. cut gaskets to your exact specifications using state of the art knife cutting, kiss cutting, water jet cutting and tape slitting machines.

Benefits

- Cut virtually any material up to 200mm thick
- Highly accurate cutting
- Ideal for cutting rubber, plastic and foam.
- No tooling is required, allowing a fast set up
- Will not produce heat affected areas or burnt edges
- Quick turn around on jobs

WATER CUTTING

KNIFE CUTTING

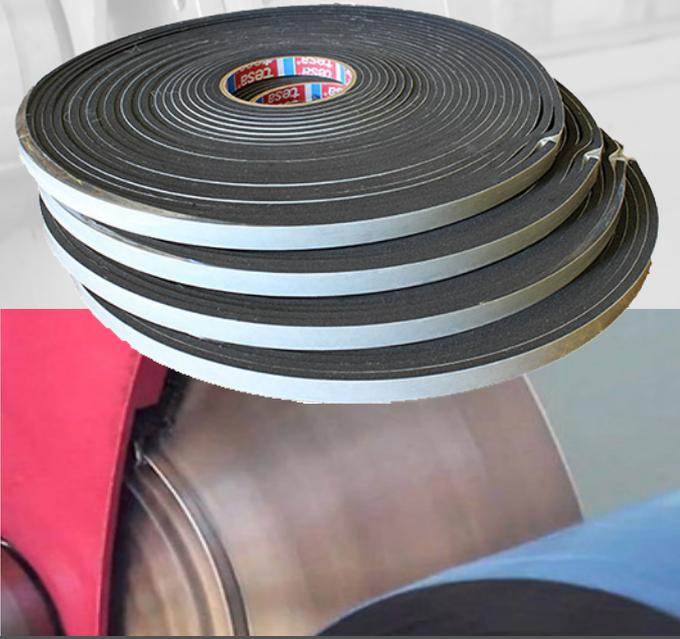

Go to www.indrub.com.au for a gasket cutting quote. Fast, simple and NO obligation.

TAPE & RUBBER SLITTING

Our tape & rubber slitting service allows us to cut materials to suit your specific needs.

We cut all types of products with roll diameters up to 500mm and 1600mm wide. Watch the video on our website to see our slitting machine in action.

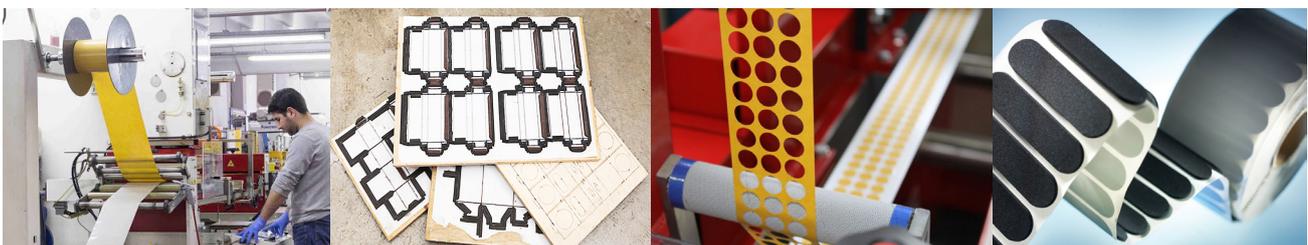

Benefits

- Cut a variety of materials to meet your specific needs
- Latest single knife slitting technology
- Ability to cut Very High Bond (VHB) double faced foam tape and dense rubber
- Ability to cut all types of products with roll diameters up to 500mm and 1600mm wide
- Suitable for cutting any nominated widths, customised to your requirements
- You will no longer have to work to standard widths
- High accuracy, high quality precision cutting
- High speed cutting allows us to deliver your order fast

KISS CUTTING

Kiss cutting individually cut parts supplied in roll form or individual items produced on silicone coated release liner choice of self-adhesive materials single sided or double sided what ever your needs.

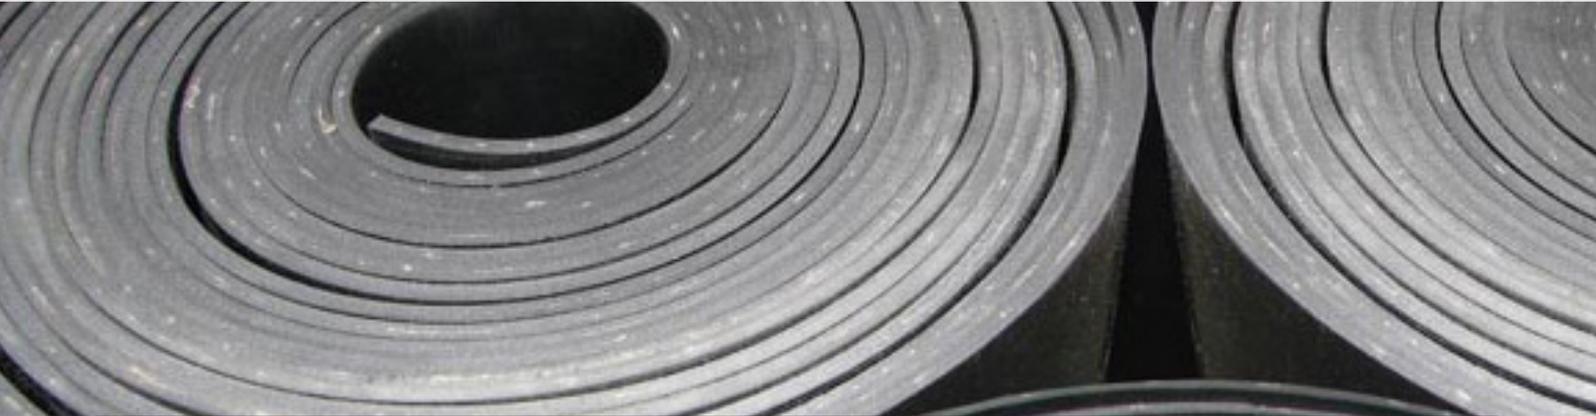

Contact us for your exact specifications.

Speciality

Polyurethane Sealants

All Purpose Silicone

For all sealing, waterproofing and bonding applications where protection against mould and mildew is required. The ultimate all rounder silicone suitable to the broadest range of applications. Offers strong adhesion to ceramics, glass, aluminium (including powder coated & anodised), PVC, stainless steel, zinc & galvanised coated surfaces, timber, concrete, fibreglass, laminate, painted surfaces, etc. For best performance clean non-porous surfaces with Soudal Cleaner & Degreaser.

Roof & Gutter Silicone

For all sealing, waterproofing and bonding applications where protection against exterior conditions is required. Offers strong adhesion to aluminium (including powder-coated & anodised), PVC, roof tile, stainless steel, zinc & galvanised coated surfaces, etc. For best performance clean non-porous surfaces with Soudal Cleaner & Degreaser.

Contact Adhesive 110LQ

110LQ Contact Adhesive is a ready to use, brush/trowel grade, solvented contact adhesive based on polychloroprene rubber. Bonding different materials like rubber, leather, cork, plastic, felt, etc. on various type of surfaces. Suitable for bonding metals, rubber, plastics, leather, wood, etc.

Multibond SMX - Seal & Stretch

Multibond SMX35 is a high quality, single component, permanently flexible joint sealant. Perfect for internal & external applications. Based on SMX® Polymer Multibond SMX35 has a “Shore A” hardness of 35 and can accommodate movement of $\pm 20\%$. Multibond SMX35 has excellent UV resistance, elasticity and can be sanded and painted with most types of paint. Once cured forms a strong, flexible, waterproof seal and bonds to the widest range of substrates. Multibond SMX35 can be used for damp and wet surfaces.

T-Rex Power Fast Grab

T-Rex Power Fast Grab is a high quality, neutral, elastic, 1 –Component adhesive sealant based on SMX® Polymer with a very high initial tack. T-Rex Power Fast Grab is a high strength sealant / adhesive that can hold 320Kg's per 10cm@ with a 1 second immediate grab.

Accessories

A comprehensive range of applicators, cartridge guns, nozzels and wipes to complement our vast range of sealants and adhesives.
